## Exemption Information

### General Information

Sales of digital products are subject to sales tax. Digital products are digital goods or digital automated services. Examples of digital goods include music and movies that are transferred electronically, regardless of whether downloaded, streamed or otherwise accessed.

Sales tax also applies to prewritten computer software and remote access software.

Certain goods or services are not considered “digital products” even though they may be transferred electronically. For example, services performed primarily as a result of human effort in response to a customer’s request are not a digital product even if transferred electronically. Other examples include internet access, telecommunication services and payment processing services. For more information about digital products please see <http://dor.wa.gov/digitalproducts>.

### Exemptions

Purchases for the following purposes are not subject to sales tax when the buyer provides a valid exemption certificate:

- **Purchased for use as an ingredient or component of a new product for sale:** A business must be purchasing digital products, digital codes or remote access software that will become an ingredient or component of a new product.
- **Purchased to be made available at no charge to others:** A business must be purchasing digital products, digital codes, and remote access software to make available free of charge for others to use or enjoy.
- **Standard digital information purchased solely for a business purpose:** Standard digital information consists primarily of data, facts, or information that is not generated for a specific client or customer. “Business purpose” means the information is relevant to the buyer’s business needs. This exemption does not apply to purchases for personal or household purposes or for any activity conducted by a government entity. This exemption also does not apply to purchases of digital automated services, prewritten software, or remote access software.
- **Purchased for concurrent use by the buyer in and out of Washington State:** A business may purchase digital products, digital codes, prewritten computer software, or remote access software for concurrent use by its employees located inside and outside the state. A business claiming this exemption must report and pay use tax on that portion of the digital products, digital code, prewritten software, or remote access software used in Washington. The taxable amount is determined by the number of users in this state compared to users everywhere. Generally, digital products and remote access software are used in Washington when the buyer first accesses, downloads, possesses, opens, stores, enjoys, or receives the benefit of the service in this state. A buyer may not claim a multiple points of use exemption for personal use.

### Purchases for Resale

Sales tax does not apply to purchases for resale of digital products, digital codes, prewritten software, and remote access software. The buyer must give the seller a completed resale certificate when the sale occurs. The seller must keep the certificate, or a copy of the certificate, in their records for five years. If you are buying a digital product this exemption certificate may be used instead of a resale certificate. Sales tax applies unless the buyer provides this exemption certificate or a resale certificate.

As of January 1, 2010, the resale certificate will be replaced by the Reseller Permit. You may apply for a Reseller Permit from the Department beginning October 2009. For information about the Reseller Permit, visit [dor.wa.gov](http://dor.wa.gov).

### How to report and pay use tax

Use tax is based on the value of the goods when first used in Washington, which is generally the purchase price. The state tax rate is 6.5%. Local rates vary depending on your location. To determine the correct rate, refer to the Local Sales Tax Rates & Changes Flyer or the Tax Rate Lookup Tool available at [dor.wa.gov](http://dor.wa.gov).

To pay use tax:

- **Online:** Use our secure online application which provides simple filing steps and payment methods.
- **By paper:** Complete and mail a Consumer Use Tax Return.
